Kore[™]
Easy solutions for your van.

Choose Kore's extremely durable lining material for your van interior

Whether your choice is the super strong plywood or plastic, the panels are ready-machined and pre-drilled to suit all common van types.

Kore linings contribute to a pleasant working environment and increase your van's resale value. Kore linings protect your cargo-space from bumps and dents and keep the loading space neat and hygienic.

The panels are quickly installed with clips and screws. Kore products are easy to order with fast deliveries.
