

KORE® VAN LININGS & CEILINGS

...
At Kore, we offer a wide range of linings, with panels that are ready-machined and pre-drilled to suit all the common van types.

Quick installation using the included clips and screws

The panels protect the cargo space from scratches and dents during everyday work and allow it to be kept tidy and hygienic

Kore® van linings contribute to a pleasant working environment and increase your van's resale value.

Last but not least, we offer machining services for any specific needs according to your drawings or with the help of our CAD and technical team
