

KoskiPaint

With ready surface for painting

KoskiPaint is Finnish birch plywood with one or two sides overlaid with special painting film. The thick, hot pressed coating gives a durable and uniform surface

The factory applied painting film makes painting easy, fast and provides for a smooth long lasting paint finish. For most applications only two coats are needed, which means considerable savings in costs. The board is suitable for interior and exterior use.

KoskiPaint is suitable especially for doors, interior cladding, farm building, vehicle bodies and sidewalls, signs and billboards and sporting equipment.

Key benefits

-  Easy painting
-  Savings in painting costs and time
-  Smooth and uniform paint finish
-  Reduced risk of surface rippling and checking due to moisture variations

ECO-FRIENDLY

EASY TO USE

LOW EMISSION

EASY MACHINING

EASY TO PAINT

Technical specifications – KoskiPaint

Base plywood	Koskisen Finnish birch plywood
Bonding	Phenolic resin according to EN 314-2/ class 3 exterior conditions Formaldehyde emission levels of panels fulfil requirements of Class E1 (EN13986) , CARB Phase II , ULEF (Ultra Low Emitting Formaldehyde)
Coating	Fully exterior phenolic resin based precured painting film with a total weight of 300 g/m ²
Standard thicknesses	6.5, 9, 12, 15, 18, 21, 24, 27 and 30 mm.
Standard sizes	1200/1220/1250 x 2400/2440/2500 mm 1500/1525 x 3000/3050 mm Other sizes on request
Density	Approx 700 kg/m ³
Edge treatment	Acrylic paint against moisture pick up
Machining	Drilling of holes edge machining like T&G, chamfer and rebate on request.
Other data	Detailed technical values can be found in Koskisen's Declaration of Performance (DoP). Please visit koskisen.com/download .

Additional information

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen plywood products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information

Wood is a living material and every panel is unique. Therefore a photograph or a sample piece cannot represent a full sized panel as regards colours, shades, figure, knots etc. Please note that a slight colour variation is accepted between panels.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
