

KoskiVeneer

Customised birch veneer with top quality

KoskiVeneer is a high quality rotary peeled birch veneer. The thicknesses of the veneers are 0,6 mm, 1,0 mm, 1,5 mm.

Our production capacity and excellent raw material availability ensure problem-free deliveries to customers all year round. Modern production technology makes customised birch veneer production possible for almost any special requirement of the furniture and joinery industries.

No compromises are made on birch veneer quality. Professional craftsmen ensure that the production line satisfies the client's dimensional and quality requirements.

KoskiVeneer is suitable especially for veneers for worktops, decorative faces for partitions and walls, laminating to frames, doorskins, moulded shaped/forms, form pressing, laminated veneer planks, dyed veneer and veneer layons.

Key benefits

-  Real wood
-  Technical strength
-  Strong, excellent bending strength
-  Saves natural resources
-  Nice surface
-  Durable material

ECO-FRIENDLY

MULTI USE

EASY MACHINING

INDOOR USE

LOW EMISSION

Qualities	A, AB, R, ABC and CD
Thicknesses	0,6 mm, 1,0 mm, 1,5 mm
Standard sizes	Max dimension 2550 x 1310 mm. Cut to desired size on request.
Moisture content	Face grade abt 10-12 % ex works, construction veneers abt 4-8% ex works.

Additional information

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen thin plywood products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information

Wood is a living material and every panel is unique. Therefore a photograph or a sample piece cannot represent a full sized panel as regards colours, shades, figure, knots etc. Please note that a slight colour variation is accepted between panels.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
