Sawn timber pine
Pine sawn timber with precise dimensions

Our pine is used worldwide for high-quality furniture, joinery and lining products as well as in construction structures. Pine sawn timber is dried and graded as a combination of state-of-the-art technology and careful control carried out by people. This is done considering the requirements of each end use. Good drying, precise dimensions and grading are the strengths of our products.

Beautiful pinetree
Pine is a straight-trunked coniferous tree with no branches on the lower third of the trunk. It usually grows in a light, dry place or in a soil low in nutrients. Pine is easy to work and has clearly distinguishable darker heartwood and yellowish or reddish white sapwood.

Heartwood is resistant to rot and sapwood can be treated against it. Pine also has very good properties when it comes to moisture and heat.

The density of the wood usually varies from 450 kg/m³ to 550 kg/m³ (Mc 12 to 18%).

Applications
- Furniture
- Glue-laminated boards / beams
- Windows and doors
- Interior claddings
- Flooring boards
- Mouldings
- Construction structures
- Exterior claddings
- Packing and pallets

Additional information

Environment
Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen sawn timber products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood’s supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information
Wood is a living material and every piece of timber is unique. Therefore a photograph or a sample piece cannot represent a full sized panel as regards colours, shades, figure, knots etc. Please note that a slight colour variation is accepted between products.
